OET MOCK TEST FOR SPEECH

Do you fear face-to-face interviews? Or are you struggling to find a reliable OET speaking practice partner for private feedback? You are not alone! Acing an OET interview is a skill, not a talent, which means you can improve with practice, guidance, preparation and reliable evaluation. Be it nurses, pharmacists or doctors, our OET assessment services are proven to boost speaking skills, giving you everything you need to score an A Grade on the speaking section of the OET! Our professional speaking evaluation team has a strong record of organising hundreds of classroom OET speaking interviews and acting as a patient to provide reliable evaluation and feedback.

Attention Doctors, Nurses & Pharmacists!

If you are a pharmacist doctor or nurse and have been trying to record sample role-play practice for evaluation all by yourself or with your friend, who is not an OET expert in giving feedback, chances are you wouldn't feel confident on the exam day and might even struggle to keep control of the interview process held in private during the exam. Not everyone knows how to play the role of a patient and apply speaking assessment criteria. Our OET Speaking Practice and evaluation course pinpoints exactly where in the speaking sub-set YOU need improvement allowing you to gain confidence with every small improvement.

Why choose Benchmark OET?

Our expert teachers at Benchmark OET can notice what you cant. They are also quite adept in playing the role of a patient for evaluation. Identifying mistakes in our speech, even when we record it for preparation, is not easily possible. For nurses, things as small as how you

greet a patient or respond to the patients concerns can affect their speaking score when passing through the assessment criteria. Many pharmacists applying for UK registration for the first time have little idea how their OET speaking test would be organised. While it may be tempting to turn to generic free sample materials for preparation or some recorded videos and record your performance for evaluation, those would give you no way to pinpoint where you need help in your speaking sub-test whether it's clarity, fluency, choice of words, skills in grammatical accuracy, professional approach or level of engagement.

How does the OET Speaking Mock Test Evaluation Service work?

The OET Speaking evaluation process is very simple. Once you book a timeslot with us, we will send you instructions, along with a recorded video, on how to join our online private one-on-one live conference room. All you need to do is follow those recorded instructions and appear online on the booked timeslot. One of the expert OET Speaking teachers will first introduce herself and give you an overview of the speaking test (in case you are new to the OET). After that, she will display a sample speaking role play card on your screen and give you 3 minutes to prepare. The interview will then continue for 5 minutes and then the teacher will record and share her feedback based on the assessment criteria and highlight your mistakes. She will also advise you how you could correct those mistakes. Later on, she will give you the second role play card and follow the same evaluation criteria and process to record your performance. Here is a simple flow diagram to explain how the Speaking OET Mock Test evaluation service would work.

What exactly does our Speaking Mock Test provide?

Our expert OET teachers analyse your sample role play performance based on the OET Speaking Assessment Criteria and determine your projected grade on factors including, but not limited to, clarity, fluency, choice of words, grammatical accuracy, professional approach, information gathering and sharing, and level of engagement.
